

HELLO!

I am an Industrial design graduate from ISD Rubika. My keen sense of observation, eye for details and good creative skills led me to pursue a career in design. As a designer, I see my self in the role of a problem solver. I enjoy exploring ideas that drive and support human behaviour to add value to people's lives. I am flexible, quick to pick up new skills and eager to learn from others.

Experience

Kiska

Industrial Design Intern
Salzburg, Austria | 6 Months | 2017

From working on smaller ideation projects to long term experience design, this internship allowed me to work for various different clients while contributing to the everyday functioning of the agency.

Godrej

Industrial Design Intern
Mumbai, India | 2 Months | 2016

A continuation of a college collaboration project where I was involved in the research and conceptualization of a new power backup solution. I worked in parallel with the in-house engineering and strategy teams.

Steelcase

Industrial Design Intern
Hong Kong | 6 Months | 2015-16

I worked independently, and often with a small team exploring multiple aspects of office furniture including seating, storage and work surfaces through various methods of prototyping and ideation.

Education

ISD Rubika

Industrial Design Masters
Pune, India | 5 years | 2012 - 2017

Graduate with highest distinction in Master of Industrial Design program led by designers and educators. I had the pleasure of collaborating with students in multi-disciplinary teams on live industry projects with leading design companies.

KV ONGC

Senior Secondary
Dehradun, India | 5 years | 2010 - 2012

Multicultural school with senior secondary program. I had science and mathematics as my major.

Collaboration Projects

Visavis

Team leader | Kitchen for India
India | 4 Months | 2016

Pedro Gomes Design

Team member | Design for ageing
Portugal | 4 Months | 2015

Godrej

Team leader | Power solutions
India | 4 Months | 2016

Designit

Team member | Tangible Audio
Germany | 4 Months | 2014

Masterclass

DCA

Maria Pires

TI Design

Marta Kisand

Studio Metis

Siamack Salari

Glynn Kerr

As a leader of two client collaboration team projects, I have had the experience of guiding multi-disciplinary teams through the design process alongside learning new ways of collaborating with people. Masterclass workshops are week long intensive courses to learn new skills. I learnt about bike design, app development, ethnography and the importance of colour and trim through these different workshops.

Technical Skills

Photoshop

Keyshot

Illustrator

After Effects

Solidworks

Hobbies

I spend my free time practicing music, taking videos or drawing concept art. These activities act as creative exercises for me. In 2014, I converted my hobby into a business and have since then worked for more than 100 bands designing album artworks, logos and T-shirt designs for their music.
